Melody™ Editions and Pricing

1 EDITIONS – STANDARD AND PRO

Melody™ Standard edition will allow users to start working with SysML parametrics immediately with execution using the free OpenModelica solver, trade studies, and MS Excel read/write capability. Melody™ Pro edition offers more powerful features, including interfaces to MATLAB/Simulink and custom Mathematica functions, which require Mathematica as the core solver.

Features	Melody™ Editions	
	Standard	Pro
Regular math solving <i>Library of math functions available</i>	Yes	Yes
Use Mathematica or OpenModelica (free) as a core solver	Yes	Yes
Excel Connection <i>Connect SysML block attributes to Excel spreadsheets and read/write from/to spreadsheets.</i>	Yes	Yes
Trade Studies <i>Execute parametric models for a set of scenarios defined in Excel spreadsheets, and export trade results to spreadsheets for plotting and post-processing.</i>	Yes	Yes
MATLAB/Simulink Connection <i>Wrap MATLAB functions/scripts as constraint blocks and use in parametric models; requires Mathematica as a core solver</i>	No	Yes
Custom Mathematica Connection <i>Wrap custom Mathematica functions as constraint blocks and use in parametric models; requires Mathematica as a core solver</i>	No	Yes

2 PRICING

Price per license is based on the number of licenses purchased (N). Only node-locked licenses are available currently. Floating licenses will be available later this year and upgrades of node-locked licenses will be available for purchase. All prices below are in USD.

Melody™ Standard Edition	Price per License	
	N < 5	N >= 5
License	\$1700	\$1200
1-year Maintenance & Support	\$300	\$300
Total per license	\$2000	\$1500
Melody™ Pro Edition	Price per License	
	N < 5	N >= 5
License	\$2100	\$1500
1-year Maintenance & Support	\$400	\$300
Total per license	\$2500	\$1800
